

- response to cadmium ion
- Spliceosome
- Carbon metabolism
- Proteasome
- cellular amino acid metabolic process
- ER to Golgi vesicle-mediated transport
- nucleobase-containing small molecule metabolic pro
- intracellular transport
- ribonucleoprotein complex assembly
- protein localization to endoplasmic reticulum
- sulfur amino acid biosynthetic process
- monocarboxylic acid metabolic process
- tricarboxylic acid cycle
- aspartate family amino acid metabolic process
- response to oxidative stress
- peptide secretion
- 2-Oxocarboxylic acid metabolism
- tRNA aminoacylation for protein translation
- protein K63-linked ubiquitination
- Oxidative phosphorylation
