

GO:0009451: RNA modification
GO:0019684: photosynthesis, light reaction
ath00195: Photosynthesis
GO:0009765: photosynthesis, light harvesting
GO:0015994: chlorophyll metabolic process
GO:0009416: response to light stimulus
GO:0000959: mitochondrial RNA metabolic process
GO:0010206: photosystem II repair
GO:0046864: isoprenoid transport
ath00944: Flavone and flavonol biosynthesis
GO:1900865: chloroplast RNA modification
GO:0051026: chiasma assembly
GO:0010345: suberin biosynthetic process
GO:0010143: cutin biosynthetic process
GO:0031425: chloroplast RNA processing
ath00903: Limonene and pinene degradation
GO:0071490: cellular response to far red light
GO:0000710: meiotic mismatch repair
GO:0048017: inositol lipid-mediated signaling
GO:0015851: nucleobase transport
