

- Spliceosome
- Carbon metabolism
- vesicle-mediated transport
- response to cadmium ion
- cellular amino acid metabolic process
- small molecule catabolic process
- intracellular transport
- nucleobase-containing small molecule metabolic pro
- 2-Oxocarboxylic acid metabolism
- heterocycle catabolic process
- acetyl-CoA metabolic process
- response to alcohol
- mRNA surveillance pathway
- regulation of response to stimulus
- indole-containing compound catabolic process
- drug metabolic process
- response to decreased oxygen levels
- nucleobase metabolic process
- ribonucleoprotein complex assembly
- sphingolipid metabolic process
